Zwolle – 16th October 2018

PRESS RELEASE

Trading Update: RoodMicrotec announces another successful quarter

- **Third quarter sales are 17% higher compared to Q3 - 2017**
- **Continued increase in sales revenue in Supply Chain Management and Test Operations**
- **Start of the publicly funded project APreMedI**

Zwolle, 16th October 2018 – RoodMicrotec N.V., the leading independent company for semiconductors supply and quality services, today released its Q3 2018 trading update, for the period ended 30 September 2018. The independent general contractor delivered again a strong quarterly performance with an increase of 17% in sales revenue year-on-year. The revenue showed a continuous steady increase in the business units Supply Chain Management and Test Operations.

In the beginning of October 2018, the publicly funded project APreMedI (appropriate testing of electrically active medical implants) has been granted and started. This project will secure EUR 240.000 in funding over the next 2 years. It will also consolidate RoodMicrotec's business in medical technology.

"I am pleased to announce another successful quarter for RoodMicrotec", said Martin Sallenhag, CEO of RoodMicrotec. *"Our third quarter results continue to be strong and in line with our expectations. With this positive result and the APreMedI project, our plans are on track to go on to drive competitive and profitable growth".*

Outlook

RoodMicrotec expects a continuing revenue increase over the next years and projects the revenue in 2020 to be approximately EUR 18 million. The results will continue to improve and the company expects to report yearly positive.

About RoodMicrotec

With more than 45 years' experience as an independent value-added service provider in the area of micro and optoelectronics, RoodMicrotec offers Fabless Companies, OEMs and other companies a one-stop shop proposition. With its powerful solutions RoodMicrotec has built up a strong position in Europe.

Our services comply with the industrial and quality requirements of the high reliability/space, automotive, telecommunications, healthcare, industrial and electronics sectors.

Our integrated quality management system is based on international DIN EN ISO 9001:2015 standards. In addition, our quality management is broadly consistent with the Automotive Specification ISO/TS 16949. The company also has an accredited laboratory for test activities and qualification to the ISO/IEC 17025 standard.

Its value-added services include (eXtended) supply chain management and total manufacturing solutions with partners, failure & technology analysis, qualification & burn-in, test & product engineering, production test (including device programming and end-of-line service), ESD/ESDFOS assessment & training and quality & reliability consulting.

RoodMicrotec has branches in Germany (Dresden, Nördlingen, Stuttgart), United Kingdom (Bath) and the Netherlands (Zwolle).
